VARIOUS QUACKS

Who, Each With His Own Pet Scheme, Cultivate the Field of Human Nature.

There have always been quacks—legal quacks, theological quacks and medical quacks. Some of them are bland, oily fellows who argue and smile the world into believing in their favorite bit of humbug. Others are pompous and pretentious parasites. But they make it pay. Men seem to love to be swindled, stipulating only that it shall be neatly done.

The dear people are equally liberal to the electric and magnetic fraud. The fellow is a genius in his line. He will put a magnetic belt around your waist, a magnetic necklace under your chin, or fit you out with an entire suit of magnetic clothes, warranted to serve the purpose of ordinary garments, and at the same time to cure all diseases, from whooping-cough to hasty consumption.

Most of them have no more electric or magnetic power about them than resides in woolen blankets or girdles of sackcloth. Only when applied by an expert is electricity of the slightest use as a medicinal agent, and even then its value is greatly over-stated. What is the strongest possible presumptive evidence in favor of a particular remedy? Clearly that it should have been prepared by responsible persons of acknowledged skill in the treatment of disease.

Squarely on this foundation stands BENSON'S CAPCINE POROUS PLASTER. Endorsed by 5,000 physicians, pharmacists, druggists, it needs no further apology or introduction. It is the one and only true and tried external application. Quacks of all kinds pay the Capcine the compliment of their dislike, as Satan is said to hate the holy water.

Look in the middle of the plaster for the word "CAPCINE." Price 25 cents.

health and avoid sickness. Instead of feeling tired and worn out, instead of aches and pains, wouldn't you rather feel fresh and strong?

You can continue feeling miserable and good for nothing, and no one but yourself can find fault, but if you are tired of that kind of life, you can change it if you choose.

How? By getting one bottle of BROWN' IRON BITTERS, and taking it regularly according to directions.

Mansfield, Ohio, Nov. 26, 1881.

Gentlemen:—I have suffered with pain in my side and back, and great soreness on my breast, with shooting pains all through my body, attended with great weakness, depression of spirits, and loss of appetite. I have taken several different medicines, and was treated by prominent physicians for my liver, kidneys, and spleen, but I got no relief. I thought I would try Brown's Iron Bitters; I have now taken one bottle and a half and am about well—pain in side and back all gone—soreness all out of my breast, and I have a good appetite, and am gaining in strength and flesh. It can justly be called the *king of medicines*.

MIDDLE-AGED MEN.

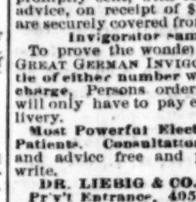

There are many at the age of thirty and sixty who are troubled with too frequent evacuations of the bladder, often accompanied by a slight smarting or burning sensation and a weakening of the system in a manner the patient cannot account for. On examining the urinary deposits a ropy sediment will often be found, and some small particles of albuman will appear, or the color will be of a thin milkish hue, again changing to a dark and torpid appearance. There are many men who die of this difficulty, ignorant of the cause, which is the second stage of seminal weakness. Dr. S. will guarantee a perfect cure in all such cases, and a healthy restoration of the genito-urinary organs.

Office Hours—10 to 4 and 6 to 8. Sundays from 10 to 11 A. M. Consultation Free. Thorough examination and advice $5.

Summons.

IN THE DISTRICT COURT OF THE Seventh Judicial District, State of Nevada, in and for the county of Washoe. The State of Nevada sends to Daniel Reynolds greeting: You are hereby required to appear in an action commenced against you as defendant by Miriam Reynolds as plaintiff in the District Court of the Seventh Judicial District, in and for the county of Washoe, State of Nevada, and answer the complaint, a copy of which accompanies this summons, therein within ten days after the service on you of this summons (exclusive of the day of service), if served in said county, or twenty days if served out of said county, but within said District, and in all other cases forty days; or judgment by default will be taken against you according to the prayer of said complaint. The said action is brought to obtain against you a judgment and decree of this Court dissolving forever the bonds of matrimony heretofore and now existing between said plaintiff and defendant. Plaintiff alleges: That plaintiff and defendant intermarried at Reno, Washoe county Nevada, on the 25th day of September, A. D., 1880; that on or about the 14th day of May, A. D. 1881, you, the defendant, willfully deserted and abandoned plaintiff, and ever since have continued, and do now so continue, to desert, abandon and live apart from plaintiff against her wish and consent, and without cause; that for more than one year last past you, defendant, have failed, and without cause, to provide for plaintiff the common necessaries of life; that there was no issue of said marriage; that there is no common property. Plaintiff prays to be restored to her maiden name; plaintiff prays judgment and to be restored to her maiden name and for her costs herein, all of which will more fully appear from the complaint which is on file in the office of the Clerk of said Court at Reno, in said county.

And you are further notified that if you fail to appear and answer said complaint, the said plaintiff will apply to the said Court for the relief demanded.

Given under my hand at Reno, Washoe county, Nevada, this 31st day of March, A. D. 1883. JNO. F. ALEXANDER, ap2-6w Attorney for Plaintiff.

EDITORIAL NOTES.

There are liable to be some legal complication regarding the location of mines in Lower California. Large parties are at Guaymas, going direct to the mines, and think to locate there in accordance with American laws and customs. Should they do so, and the subsequent denouncers claim their location, the law there will sustain them, and as there will no doubt be a judge and military at the mines, the law will be enforced.

The new Commissioner of Revenue, Walter Evans, is a prominent Kentucky Republican, having been the nominee for Governor four years ago. He also served in the Union army during the civil war.

It is thought by some that Sharon Mackey and Jones will be candidates for the Senate next year. If they are, there will be a good chance for a dark horse. So Wren and others will be in.

When an Oakland merchant wants to have a rest, he don't go off to some country tavern and spend his money. He just takes his advertisement out of the papers and stays at home.

The Discovery of a Pass Which Will be of Much Benefit to Commerce.

PANAMA, May 12.

The Bareloche Pass between Chili and Argentine territory, which has been recently discovered, had long been searched for, but the astuteness of the Indians in time of peace and the precautions taken by them in time of war have hitherto prevented it becoming known to Argentines or Chilians. The Jesuits were aware of its existence a century and a half ago, but unsuccessfully explored for an entrance to it in all directions. The discovery of this pass places the Pacific within 70 miles, by easy road, of the extreme western Argentine outpost at Lake Nahuelhaspi, and it will now be possible to construct a railroad from the Gulf of San Matras, in Patagonia, on the Atlantic, across the Pampas and through this pass to Chili on the Pacific, which will be less than one-half the length of that now in course of completion from Buenos Ayres to Santiago via Mendosa. It is difficult to overestimate the value of this discovery.

Almost a Serious Accident on the Southern Pacific.

TEHACHIPI, May 23.

The north-bound freight and emigrant train met with an accident last night. Two freight cars jumped the track about three-fourths of a mile north of Tehachipi and were smashed. Five others broke loose from those ahead and would have either raced the train down the grade or ditched it all, but for brakeman Cochrap, who jumped and caught the loose cars and stopped them, preventing a more serious accident. He received slight injuries. There were about 100 emigrants on board.

Crook's Chances — What General Schofield Has to Say of the Indian War on the Mexican Border.

CHICAGO, May 24.

General Schofield stopped in the city yesterday on his way to California. When asked if he thought the expedition across the Mexican border was liable to terminate disastrously to the troops, he replied: "I think Crook understood the situation perfectly before he made the venture, and I do not think he would imperil the lives of his men in what promises to be a hopeless undertaking."

"Have you heard from him lately?"

"I have received no communication from him for about a month, but I attach no unpleasant significance to this. You see, he is in a wild, desolate region and his only means of communication with the outer world is by messengers. He needs every one of his men, and unless absolutely necessary he would not weaken his force by lessening them for that purpose. When he starts back we will hear from him; but lack of news now is evidence that he is going ahead."

"How long do you think it will be before he returns?"

"Crook wrote me that he expected to be gone about two months, and as one month has already been occupied by the expedition, I confidently expect to hear of his return within four weeks. He knows best what he has to contend against and can probably estimate the numerical strength of the enemy to within 10 rifles. I do not think he has gone blindly into the thing, and I believe he will come out all right."

"What do you think of the prospect of further trouble with Indians after the Apaches are conquered?"

"There is now no indication of any of the reservation tribes breaking out. All seem to be well contented and peaceable. The Apaches are really the only race that has never been subdued. Mexicans recently killed all their women and children and they are desperate and will fight to the bitter end. If the troops are surprised or entrapped they can hope for no mercy, but all will be killed; but Crook's scouts are so familiar with the country that there is hardly a possibility of being taken at disadvantage."

General Schofield will remain in the city until Saturday, when he leaves for California.

Scene in a Philadelphia Court Which is Somewhat Mixed.

PHILADELPHIA, May 24.

There was a remarkable scene in the Quarter Sessions Court to-day during the trial of Thomas W. Lyons for the killing of Chung Wah You in February last. Sam Sah took the stand and under the rigid examination of counsel for defense grew very nervous and excited. Three little children were called inside the bar. "Did you ever see these children before?" asked counsel Shields.

"No, no, no!" almost yelled the witness, as he burst into a paroxysm of tears and leaned his head upon the railing of the witness-stand.

"You must understand," said Judge Mitchell, "that these men are foreigners and strangers to our customs and manner of doing business, and are liable to be overcome by excitement and their feelings, and they must not be pressed too hard."

"I want the jury to give us justice," called out Hem Dock, who was sitting in the audience, while tears rolled down his cheeks. Sam Sah was excused from the stand.

Catching Small-Pox From a Corpse

ROBINSON, Ills., May 23.

The body of Miss Susie Young, who died at Mrs. Bower's conservatory in Cincinnati, was taken to her mother's house, where the casket was opened and the corpse prepared for burial. The undertaker and three of Mrs. Young's family developed small-pox. Mrs. Young died Saturday and the undertaker died last night. None of them had any other exposure.

A Desperate Lover Does Some Bloody Work.

LARNED, Kan. May 23.

Striking Coal Miners Making Trouble.

ST. LOUIS, May 24.

The striking coal miners took possession of the Albany mines during the night, driving off 150 miners who were working. Reports of fighting between miners at Collinsville, Ill., are also received, but no particulars. The Albany mine is worked by machinery.

A Cunningly Planned and Well-Executed Robbery.

CLEVELAND, May 24.

The United States Express Company's money-carrier, Alexander Granger, received on Sunday a package of money and other valuables from the east-bound Lake Shore train at the Union depot, and this morning put it in a buggy standing outside. Somebody from the ice-room called to him and, no one being in sight, he stepped a little way from the vehicle to ascertain who called. Returning he drove to the main office and there discovered two bags similar to the company's pouches, but filled with brown paper, had been substituted for two containing money. It is supposed the robbery had been carefully planned by experts and executed at the moment Granger's attention was diverted. The missing pouches are said to contain in the neighborhood of $15,000 in 30 packages of remittances from railroad stations on the Lake Shore Railroad between Chicago and Toledo to headquarters. The amount cannot be definitely known for some days. Much of the remittances are thought to be in bank checks and certificates of deposits.

A Gala Day in Gotham and Brooklyn—Celebrating the Opening of the Biggest Bridge in the World.

NEW YORK, May 24.

To-day was a gala day in Brooklyn. Throughout the city there seemed to be a general surrender of business to sight-seeing and celebration. The main business avenues, the Heights and many streets were decked with flags, bunting and flowers. Public buildings, houses, street-cars, wagons and trucks fly the colors of alll nations in honor of the opening of the big bridge. From the towers of the bridge the national flag waves and the span across the river is decorated with flags from one end to the other. In New York business was partially suspended. Most of the exchanges were closed and many business houses suspended work for the afternoon. Flags float from the municipal and other buildings in City Hall Park, from business places along Broadway and other streets and from many private residences. At the New York end of the bridge workmen have been busy all the morning putting the finishing touches to the decorations.

A. N. Towne Severely Injured by a Billet of Wood.

SAN FRANCISCO, May 24.

A. N. Towne, General Manager of the Central Pacific, was severely cut on the head last evening by a block of wood thrown by a peddler at a teamster in a dispute. Mr. Towne was passing in a street car at the time. The block of wood missed the teamster and came crashing through the street car window. He was knocked senseless, but beyond a severe cut on the ear and side of the head, it is not considered dangerous.

To the Citizens of Reno:

I HAVE BEEN A RESIDENT OF your town for three years, and, outside of my own business, have not seen a decent pair of boots that were made here. In order, therefore, to extend to everyone facilities for obtaining really first-class boots and shoes, I have sent to San Francisco for two A No. 1 mechanics, the best to be found in the country, and will run (as heretofore) a prime, first-class shop. The enlargement of my stock and facilities will entail heavy extra expense, and I look and trust, therefore, to Reno's citizens and the people generally who are desirous of obtaining the very best of workmanship, to aid me with their increased patronage. First-class material, first-class workmanship and first-class work at living rates is the motto on my coat-of-arms.

THE POST'S LIBEL SUIT

The Reasons Given by Mr. Ernst for His Vote.

THE CASE TO BE TRIED IN SAN FRANCISCO

The Post's Criticisms Dissected and Answered.

George Ernst of Belmont, Nye county, late candidate for State Surveyor General, is in town. The San Francisco *Evening Post* published during the last campaign an article reflecting on him for his opposition to a bill introduced during his term in the Legislature in 1881. The bill authorized the Surveyor General to make selections of lands donated to the State under the 2,000,000 acre grant and paying him a cent and a half an acre for it. The *Post* said Mr. Ernst had a wood business which would be interfered with if the bill became a law as passed by the Senate, and that by his opposition the State lost a million of dollars. Mr. Ernst said at the time that he would sue the *Post* for libel, and he is keeping his word. As most of the Republican

PAPERS OF NEVADA

Republished the article, it may be of interest to them to know that Mr. Ernst will bring no suits against any but the originator of the article. Mr. Ernst's reasons for opposing the bill were given by him at the time, and his able and vigorous fight was undoubtedly the cause of its defeat. They are as follows:

First—It might entail a needless expense of $30,000 on the State.

Second—As only surveyed lands could be selected much valuable timber, grazing and farming lands which were still unsurveyed must be lost to the State if the grant was exhausted. As the law now is the State gets the benefit of such sales as fast as the land comes into market.

Third—At that time a great many desert and pre-emption applications were on file in the United States land offices which have since been withdrawn and the lands bought from the State on account of the greater ease in getting titles. None of this land could have been selected then on account of its being already applied for and withdrawn.

Fourth—This state of affairs would only have left Hobson's choice for the Surveyor-General. He could only have selected lands that had been refused by everybody else, hence the great risk the State would have run of never selling an acre of the lands so selected.

Fifth—If it had been advisable for the State to select these lands, refused by everybody else, they ought not to be selected without a personal inspection, and as the bill only allowed a cent and a half an acre for his service, it is patent to anyone that the Surveyor-General would not travel far to inspect 160 acres for $5 40; therefore it follows that he would have made an office selection from the township plots.

Sixth—The bill provided that if the Surveyor-General selected any timber lands they should be graded. All timber lands that would cut 400 cords and over to the acre should be sold at $2 50 per acre, and all under at $1 25. It is believed that there is no land that will produce 400 cords to the acre subject to selection. It follows that all the land selected would be sold for $1 25, if at all. So there would be nothing gained by selecting, and the State would have taken the risk of never selling it at all.

The State could not have been injured a million dollars, because the failure to select did not affect the State's title to the grant or its sales of land in any way. During the two years intervening between that and the next session of the Legislature only about 170,000 acres were sold, and as that Legislature had the right to pass a similar bill there could not have been any such loss.

AS THE LAW NOW STANDS,

No lands are selected until a deposit of 25 cents an acre has been made with the State Treasurer to show the purchaser's good faith, so that the State does not risk the sale of an acre. These are the reasons given by Mr. Ernst, and they seem to the GAZETTE to be good. Years ago the general Government donated to the State for university, public buildings and other purposes a little over 700,000 acres of land, with the privilege of selecting in 40-acre tracts and upwards at such times and in such places as it deemed best. At that time some long-headed Legislator, who deserves a monument, introduced a bill which became a law, that no land should be selected until there was a bona-fide purchaser. Every acre of this old grant was sold before January 1, 1874, and this late grant is being disposed of under the same law. Mr. Ernst says he is unwilling to have this wise law changed. He says he will push his suit through vigorously. L. A. Rockwell & Co. of San Francisco are his lawyers. It will be tried in the Superior Court of San Francisco before Judge Evans.

THE BEST WAY TO GO.

The Cheapest and Most Attractive Route to Yosemite Valley.

When it becomes generally known that the best route to Yosemite Valley for tourists coming from the East by the Central Pacific is by way of Bodie and Lundy, Mono county, a large amount of travel will be diverted in that direction. To go by the western side of the Sierra necessitates a roundabout, tedious trip, in which the tourist doubles upon his track, causing a useless outlay of time and money, to say nothing of personal inconvenience. Starting from Reno in the morning the tourist will arrive at Bodie about midnight; from there to Lundy is but a short ride by Hector's stage. Here in Mill Creek Canyon the tourist is surrounded with wonders of mountain scenery that, if no more were to be seen, would well repay him. Thence to Yosemite the delightful trip is made on horseback. S. B. Burkham, an experienced mountain guide, has a saddle train of gentle horses, sure-footed and used to the trails, which cross a region magnificent in its wildness, abounding in game and trout. This is not only the shortest and best route to Yosemite, but the cheapest by considerable.

TRUCKEE NOTES.

Scraps of Interest From a Section of Our Lumber Country.

The *Republican* of May 23d contains the following interesting jots:

The Truckee Lumber Company pay-day made things lively.

A. J. Graham has accepted the position of Superintendent of the Truckee saw mill.

R. A. Shearer, night operator at this place, who was a week or two ago transferred to Dixon, returned to Truckee and will resume his old position.

The advisability of getting up a Fourth of July celebration is beginning to attract the attention of Truckeeites.

There is said to be three feet of snow on the summit between Truckee and the Tahoe Hot Springs. The work of opening the road will be commenced the first of next week.

The work of putting the Tahoe and Truckee telegraph line in repair was completed yesterday, and now Tahoe City has telegraph communication with the outside world, or will have as soon as the operator can be obtained.

The roads to Sierra valley and Tahoe City are rapidly drying up, and with the exception of a few places they are now in fair traveling condition.

The infant child of Mr. and Mrs. Jos. Marzen, who, for several days past was dangerously ill with pneumonia, is considered out of danger.

There is now fine fishing on Donner lake.

The roads have not yet been opened to Webber and Independence lakes, and the date of the opening of these Summer resorts has not yet been decided.

The Proper Time to Irrigate.

If parties who use water for irrigating purposes would choose morning or evening for the work it would be much better than when the sun is high, and, besides, those who need a full head of water would not be inconvenienced by having the pressure reduced at a time when it is most desired. Vegetation is not benefited, but on the contrary is injured, by being drenched during the heat of the day.

To the Boys.

Editor Gazette:—We would like to known what right the police officers of this town have to stop us boys from playing ball on the street. Please answer through the GAZETTE and oblige THE BOYS.

[They have no legal right to stop you unless your playing provokes a disturbance of the peace or obstructs travel.—EDITOR GAZETTE.]

A Lively Season Anticipated at Lake Tahoe.

The hotel proprietors of Tahoe are busy making preparations for the large number of tourists that are expected this summer, and everything that could reasonably be done to add to the comfort and attractions of the place has been or is being done. The tourist season at the lakes bids fair to excel any former year.

A Fine Badge.

Wm. Sutherland of Virginia has just printed a beautiful badge for De Witt Clinton Commandery, to be worn by the members on the breast during their attendance at the Triennial Conclave. The design is printed on white silk in black, gold, blue, green and red.

Good Reports.

Reports from the great Sweetwater lode, says the *Free Press*, are of the most favorable character. Prospecting will be under good headway by the middle of June.

Getting Ready.

The Carson Guards, says the *Tribune*, are working like beavers at their ranges, and by the end of next week all will be in order for the Turner's picnic.

A New Trial.

The second trial of James E. Coombs, for the murder of Ross, takes place at Carson one week from next Monday.

RENO'S POOR POLICY.

Sacramento Merchants Shrewdly Taking Advantage of It.

The Carson *Appeal* contains the following: A few weeks ago H. G. May & Co. sent the *Appeal* an advertisement of the Sacramento Fulton Market, saying it was "only an experiment." Yesterday the following was received:

Publisher Appeal:—Have reaped a good benefit from the ads. in your paper. Discontinue present ones and send bill along, which will be cheerfully paid. We will send you another advertisement in a few days and consider it coin well spent. Yours,

H. G. MAY & CO.

Sacramento May 21, 1883.

There are dealers here who do not advertise, as they say it "doesn't pay," and yet enterprising men in Sacramento are taking the money right from under their noses.

The same might be said of Reno. Several merchants here say they do not want the "town trade," and it is not at all surprising that Sacramento and San Francisco receive it. Merchants below do want it and make an effort to get it. Some men have a very vague idea of how to conduct business, and seldom find their mistake until the Sheriff gives them the information.

PLUMAS ITEMS.

News Culled from the Columns of Our Quincy Exchange.

Frosty nights lately and some damage reported to the fruit.

The Crescent is running 16 stamps on good rock.

Fred. Miller has been appointed receiver at the Manson & Corbin mine at Elizabethtown.

The weather clerk is in a lovely humor now, and for the past two days the skies have been bright and the sun warm. The crops are already looking better and the roads are drying up fast. It looks as though the Summer was at hand.

Plumas county has a population of about 5,000. It is rich in minerals and timber, and contains an immense area adapted to grazing. Hundreds of excellent dairies are found within its borders, and thousands of pounds of the best butter in the State are made here. The county has no natural outlet except the deep Feather river canyons.

Steady and Sure—No Boom, but Solid Progress.

Reno is improving steadily, and building up without any boom. It is not being done so much by building up new and imposing buildings as by making small but steady gains. Nor is it by putting in new money so much as by the thrifty citizens devoting their own time and labor to the work. Valuable additions are made and comforts added to homes and farms that are hardly felt as burdens at all. Everybody feels that he has come to stay, and makes solid preparations for coming years.

A Reno Bootblack With a Large Fortune.

Many of our residents will remember a bootblack known as "Saxey," who was here off and on for several years blacking boots, and at odd times playing winning games at pool. Well, this boy, it is stated, has recently erected a $20,000 building in Denver. He was well-known here and used to keep a boot-black stand for Hammersmith, where Belz's barber-shop is now.

A Narrow Gauge Locomotive on V. & T. Road.

J. R. King, Master of Transportation on the V. & T., came down to-day at noon with a derrick to hoist the N. & O. engine Santa Cruz upon a flat-car. It went over to Carson this afternoon to undergo a thorough overhauling. It is probable that her name will be changed to "Antelope," or something else that runs fast, to see if it won't change her luck.

The Best Paper for General Reading

The RENO WEEKLY GAZETTE is a magazine of interesting reading matter, comprising Eastern, Western and foreign news by telegraph up to the hour of going to press, together with all the local intelligence that can be obtained by diligent reporters during the week, and a large amount of interesting and instructive miscellany, aggregating upward of 2,000 columns yearly, and all for $2 00, post paid.

Important to Farmers.

Judge Rising yesterday granted a perpetual injunction in the Boynton-Longley case. This decision is of the greatest interest to farmers whose ranches are irrigated by artificial means. It has usually been the custom among farmers in this State to let their waste water take care of itself. It will be very expensive in many cases to dig drain ditches to carry away the waste.

Death of Mart Follett's Mother.

The mother of Mr. M. V. Follett, conductor of the V. & T. local train between Reno and Virginia, died yesterday morning in Carson. Mrs. Follett was a native of New York, aged 40 years. She had been an invalid for about five years, and of late had been failing rapidly. Her funeral took place at Carson this afternoon.

Sliding Down Hill.

J. C. Haynes bought a $4,000 house from Mr. Strother on B street, Virginia City, for $200. He is taking it down and will move it to Reno.

HIGH AND LOW.

How Nevada's Great River Daily Rises and Falls.

The Truckee river increases in volume every day during the afternoon, and then recedes somewhat during the night, says the *Republican*. This is caused by the melting snow. During the evening the temperature moderates from 20° to 30°, and perceptibly checks the descent of the flood of waters. The gate of the Donner Boom Company's dam near Tahoe City has been raised daily for the past two weeks, to enable the Truckee Lumber Company to make their log drive, and at such times it looks as though the river would be navigable for small steamboats.

A Lacerated Hand the Result of Fishing with Giant Powder.

S. K. Barber came in from Pyramid Lake this afternoon to have a badly lacerated hand dressed. He says he was on the lake and out of bait, and thought he would drop a giant powder cartridge in a sucker hole, when it went off in his hand. The thumb and the first finger of the right hand were badly lacerated. Dr. Dawson trimmed up the injured member, and thinks he will get along all right. The suckers still live.

Tag Your Dogs if You Want to Save Them.

The dog-tax law is about to be enforced The cost will be $3. If impounded it will take $5 to get a canine out of quod, and if not redeemed in two days the animal will be slaughtered for the benefit of whom it may concern. It will cost $5 to tag a female, and $7 to get her out of the Constable's clutches. Justice Young will have tags for sale to-morrow.

All Going East.

A. J. Stemler, in charge of Baldwin's horses that went east yesterday, says most of the best stock on the coast will go the other side of the Rockies this Summer, and that there will not be many fast ones left. It is proposed to get up an excursion of Pacific coast horse sports to go east and visit the races that will take place in different parts of the country.

The First Shipment of Pressed Wool from Reno.

A car-load of wool, amounting to 12,000 pounds, was shipped yesterday by S. C. Hall direct to Hartford, Connecticut. It was well pressed into bales of convenient size, and is the first lot of the kind shipped from Reno. Heretofore it had to be sent to Sacramento to be baled before it was shipped east.

Constable Nash Beats the County Again.

Constable Nash obtained judgment this morning in the District Court for the full amount claimed. This is the second time he has won the case, which probably disposes of it finally.
